OBSERVATIONS/ACTION REQUIRED

A routine food hygiene and food standards inspection was carried out today in accordance with the above legislation. There is 1 item which requires your attention:

1. The hot water boiler was turned off, therefore there was no hot water. You must ensure that the hot water boiler is switched on at the start of the day and remains on whilst you are in operation as all wash hand basins are required to have hot and cold running water at all times. [EC Regulation 852/2004 Annex II Chapter I Paragraph 4]. Timescale: immediately.
